KITE

ENCORE: DOWNSLIDE

sold out show

kite: lots of help from Dru, who build a contraption to fly the kite via a boat. but he capsized twice and ended up walking chest deep in the river in the dark. then got out soaking wet to launch fireworks during downlside.

angela martinez and anthony helped much with the lighting. i set my tent up on stage, maybe a waste of time b/c I never got to use it like i planned. it was a prop. also had my fireplace on stage. that was a very nice, cozy touch.

joe's amp blew up at soundcheck so he went DI. john dailey was fantastic. joe said excellent song list choices
