you gave in
more like caved in
you caved
your chest caved in
but don't forget you've got breasts
so please stand more straight
a power posture
and swell your heart
swell your breast
with hope
with hope
with love
with optimism with something i can sink my teeth in

For me optimism is two lovers walking into the sunset arm in arm. Or maybe into the sunrise - whatever appeals to you.

Pessimism and optimism are slammed up against each other

v woolfe These are the soul's changes. I don't believe in ageing. I believe in forever altering one's aspect to the sun. Hence my optimism.

for every white nationalist that is up all night on youtube comment section there are maybe 10,000 normal people looking at cute baby goat videos, or kitten's falling asleep

let's do the numbers

for every person that beats a dog
there are, conservatively ,10,000 earnest toy poodle owners taking fluffy to get a doggy pedicure

for every person that hurts a child there are 100s of thousands of underpaid elementary school teachers that love each and every child, the whole sea of them that wash across the years of their career

face it. it's not 50/50

good wins hand down
so why are you so down in the mouth
face it. it's time to party

my uncle used to love me but she died
